

Don't Leave Me

Dream Street

My name is rudi oh
That's what my family called me
Ever since the day when they just walked away
Ever since they left me
If I could talk to them just one more time
This is what I would tell them

Don't leave me in the dark night all alone
Don't leave me by myself
You're my mother and you are my father
Please, please don't leave me

When I realized how much I missed
Nobody to tuck me in at night or whisper in my ear
"i love you..."
If I could talk to them just one more time
This is what I would tell them
