Don't Leave Me

Dream Street

My name is rudi oh
That's what my family called me
Ever since the day when they just walked away
Ever since they left me
If I could talk to them just one more time
This is what I would tell them

Don't leave me in the dark night all alone Don't leave me by myself You're my mother and you are my father Please, please don't leave me

When I realized how much I missed

Nobody to tuck me in at night or whisper in my ear

"i love you..."

If I could talk to them just one more time

This is what I would tell them
