

# Let It Go!

Drew Seeley

Standing outside in some line just trying to get in  
Thinking of a girl that I'd rather be forgetting  
Velvet rope, ID check, I'm 'bout to step in  
Just then, my night turns around like in a second  
Cause who's that on the floor, she's a superstar

I've seen you here before, don't know who you are  
You're a dangerous distraction, yes I'm askin'  
What if we forget 'bout consequence?

Cause you got me drunk with confidence  
And we could just  
Let it go, let it go, feel the flashing lights  
Bring your body in close, when it feels this right

Let it go, let it go, let me hold you tight  
Tonight, tonight  
Suddenly the lights, the beat just fade away  
It's only you and me surrendering to this crazy energy  
Can you feel it, it's electric, we're inexplicably connected  
You put everything outta my mind

Cause what we got got got is hot hot hotter than a remix, remix  
, remix  
Know a spot spot spot we wont get caught caught  
No I never been this, been this bold but baby we should let it  
go!  
Take what you want cause I got what you need  
We don't have to define what it is, what it means

I'll just hold onto you baby hold onto me tonight tonight tonight  
ht  
You can take what you want cause I got what you need  
Tell your girls they can go you'll be leaving with me  
We can circle the moon, stars, the far galaxies tonight tonight  
tonight
