

# Love Down Low

Drew Seeley

No my friends can't control their eyes, uh uh  
Think I'm the luckiest man alive  
So did I, thought you were oooh too good to be true  
And I might have been right, now I see the clues  
Won't take my hand, and till you've looked around  
You always say Keep your whispers down  
When we're out, turn into some-one I don't even know  
And then it's back to you when we're all alone

Trying to give you the benefit of the doubt  
But am I a secret you don't want to let out?

Some kind of love down low  
why stick around here  
If you care who knows  
Now tell me why you wanna  
Make such a fuss, if it's just bout us  
Can't take this touch and go  
You can keep your 'love down low'  
If you want your love down low

Don't need to go and tat my name on your back  
Ain't gotta go and write our names in the sky  
But I, I'm not a fool so don't argue the fact  
You got two sides, you're jekyll & hyde

So Why -If there's nothing to worry about  
Am I a secret you don't wanna let out?

Some kind of love down low  
Can stick around here  
If you care who knows  
Now tell me why you wanna  
Make such a fuss, if it's just bout us  
Can't take this touch and go  
You can keep your 'love down low'

Now we're way past too late  
What we had feels thin and fake  
I just give and you just take  
Everything we've built is bout to break  
If all you want is just a

Some kind of love down low  
Can stick around here  
If you care who knows  
Now tell me why you wanna  
Makesuch a fuss, if it's just bout us  
Can't take this touch and go  
You can keep your love

Keep your 'love down low'  
Can stick around here  
If you care who knows  
Now tell me why you wanna  
Makesuch a fuss, if it's just bout us  
Can't take this touch and go

You can Keep your 'love down low'  
If your want your love down low, oh ow...  
Oh love down low  
Oh love down love down
