El President

Yeah yeah ya Came from the skies Burst through the gates With no mercy or disguise

With their hearts set out in flames I know; I've seen the master plan Well I'm just a man (I am just a man)

I'm not giving in
All the people understand
'Cause they all fell down and prayed
I know;

I've seen the master plan Kill the President They killed the President They killed the President

Came from the skies (Came from the skies) In all shades of green We can always justify

We can measure up your dreams I know; I've seen the master plan Kill the President

They Killed the President Yeah yeah ya Yeah yeah ya Yeah yeah ya

They killed the President they've killed the President I'm just a man Drugstore
