

## White Magic For Lovers

Drugstore

Leave a candle by his doorstep  
With a snapshot of his face  
Turn around and take a deep breath  
On the first weekend of May

Keep a hair strand in your pocket  
And don't rely on any friend  
Brew some Catalina Coffee  
With the letters of his name

White magic for lovers  
When all your love has gone away  
White magic for lovers  
When you hold on

Oh, you hold on  
To your faith  
Turn your tears back into water  
And leave the bottle by his door

With a message on the cover  
Saying, "To the one you love?"  
White magic for lovers  
When all your love has gone away

White magic for lovers  
When you hold on  
Oh, you hold on  
To your faith

White magic for lovers  
When all your love has gone away  
White magic for lovers  
When you hold on

Oh, you hold on  
When you hold on  
Oh, you hold on  
To your faith
