Burning Ground

Druhá tráva

Capo 3 (Gmi)

Emi.CEmi.CAnd I take you down to the burning groundAnd you change me up and you turn it aroundIn the wind and rain I'm gonna see you againIn the morning sun and when the day is doneAnd you take my hand and you walk with meAnd sometimes it feels like eternityAnd I turn the tide I get back my prideAnd I make you proud when you say it out loudWhen I take you down to the burning ground

G C

R: [: To the burning ground :] 4x

And I take you down by the factory And I show you like it has to be And you understand how the work is done And I pick up the sack in the midday sun And I pull you up through by the skin of your teeth And I lift the veil, I see what's underneath And you return to me and you sit on your throne And you make me feel that I'm not alone And I take you down to the burning ground

R:

DAnd you fall and pray, when you hear that sound And we're walking back to the burial mound And you shake your head and you turn it around And you see the flames from the burning ground And you get down on your knees and pray And I catch my breath as we're running away And I take the Jute and I throw him down

R:

And you make me think what it's all about Sometimes I know gonna work it out And I watch you run in the crimson sun Tear my shirt apart open up my heart And I watch you run down on your bended knees By the burnt out well can you tell me please Between heaven and hell won't you take me down
