

Wasted Time

Dubioza Kolektiv

And believers will find their way out
And betrayers can just shout
Our decision is which side we choose
To fight and win or close our eyes and lose
Close our eyes, close our eyes and lose

And the words easily lose their form
If you ask yourself where you're coming from
Everything has its own way
It's involved in a balance it makes
Close our eyes, close our eyes and lose

REFREN x2 :

Come and come and come and come
Come and see better
Come and come and come and come
Rise all together
Come and come and come and come
Come and see better
Stop wasting your time
Into things that don't matter

And believers will find their way out
And betrayers can just shout
Our decision is which side we choose
To fight and win or close our eyes and lose
Close our eyes, close our eyes and lose
