

Dark Days

Duff McKagan's Loaded

Sure enough listen to me

Dark days, black nights,
Now you say, it's gonna be alright
Your way, my plight
All you ever want do is fight

Chorus:

Watcha are gonna do
Why do you wanna stay?
Such a waste of time
Can't stand another day
Nothing to this game
Go and get a life
I got to get away
Away and save me

Sure enough listen to me

My way, your way
Don't you know something's got to break
Get out
Nothing left to take.
Got to save a little piece of grace

Watcha are gonna do
Why do you wanna stay?
Such a waste of time
Can't stand another day
Nothing to this game
Go and get a life
I got to get away
Away and save me

Watcha are gonna do without me
Now, that I've got away?
This last time was the last time again
You'll never look the same

Watcha are gonna do
Why do you wanna stay?
Such a waste of time
Can't stand another day

Dark days, black nights,
Now you say, it's gonna be alright
