

# Holiday

Duff McKagan

Got a aching head,  
Waking up the dead  
Wrapped up in a shroud  
Floating on a cloud  
Trying to catch some zees, brain is full of bee's  
Mister, mister please, won't you please leave me be

(chorus)

I'm on holiday, I'm on holiday  
Dreaming off in space, time and a place  
Life calls my name, won't play the game  
Little joy sleep brings, telephone sings  
Answering machine, won't you please kill the ring

(chorus 2)

I'm on holiday, I'm on holiday

Let's rock.  
Kurt Bloch

Tired of waking up, coffee in my cup  
Brain is setting sail, today I can't fail  
Walking with the snakes, swimming with the sharks  
Honey, honey please, don't you leave me in the dark

(chorus)
