

# I Am Death

## Dungeon

Death - the anti-hero  
Champion of the doomed  
I'll be there to end your life  
To take you to your tomb  
I will seal your fate, before me you'll decay  
There's no escape, your soul is gone  
I'll steal your life away

I'll end your suffering, I'll end your pain  
When you take your final breath  
Then you'll know my name...

I am death (death - death - death) (4x)

I live within the hungry children on the streets  
I'm the disease that kills you while you sleep  
I am the needle that's in the junkie's arm  
I am the tormentor - the storm before the calm

They call me the reaper  
I am the man in black  
When you give your life to me  
There is no turning back  
You will know the end is near  
You'll see my toothy grin  
Now you leave this life of hell  
But another one begins...
