

## Country Star

Dustin Lynch

I'm on the edge of slippin' right into something with you  
But more and more with every dive bar corner kiss you  
Girl what you say we get outta here  
Get way out where the sky is clear

Get to wishin' on a country star out on the farm  
I keep my arms wrapped around you so tight  
I sit you on a tractor girl then afterwards  
We'll crash and burn into each other all night  
There ain't nothing like crickets singin' in the background  
Takin' our time, ain't no hurry comin' back down  
Fallin' like a country star, we'll get to fallin' like a country star

Girl have you ever slept in the back of a Chevy bed  
Nothing but moonlight and you sliding off that denim  
I'll play you something with a steel guitar  
And I bet you I'mma steal your heart and get you

Fallin' like a country star out on the farm  
I keep my arms wrapped around you so tight  
I sit you on a tractor girl then afterwards  
We'll crash and burn into each other all night  
There ain't nothing like crickets singin' in the background  
Takin' our time, ain't no hurry comin' back down  
Fallin' like a country star, we're fallin' like a country star

There's only so far we can fall in this bar  
Let's take this party for two  
Somewhere out in the dark  
And get to falling like a country star  
Falling like a country star

We're falling like a country star out on the farm  
I keep my arms wrapped around you so tight  
I sit you on a tractor girl then afterwards  
We'll crash and burn into each other all night  
There ain't nothing like crickets singin' in the background  
Takin' our time, ain't no hurry comin' back down  
Fallin' like a country star, get to fallin' like a country star
