

Need U

DVBBS

Need you forever, forever, forever
Need you forever, forever, forever

Do you still wish upon a star
In a, in a world that feels alone
Do you ever wake up and scream my name
Been through it on my own

Will you be there for me
Take your breath away
Let's not say too much
Cause this [?]
Set your destiny
Tryna hold you right now

Need you forever, forever, forever
Need you forever, forever, forever
Need you forever, forever, forever
Need you forever, forever, forever

Need you forever, forever, forever
Need you forever, forever, forever
Need you forever, forever, forever
Need you forever, forever, forever

Sometimes the silence makes it hard for me to leave you
But it's hard for me to see what's true
Did you ever believe that I would break these chains to see you
And hop these trains to get to you

Will you be there for me
Take your breath away
Let's not say too much
Cause this [?]
Set your destiny
Tryna hold you right now

Need you forever, forever, forever
Need you forever, forever, forever
Need you forever, forever, forever
Need you forever, forever, forever

Coming up, coming down
Look at all this love we've found
Coming up, coming down

Coming up, coming down
Look at all this love we've found
Coming up, coming down

Coming up, coming down
Look at all this love we've found
Coming up, coming down

Coming up, coming down
Look at all this love we've found
Coming up, coming down

Need you forever, forever, forever
Need you forever, forever, forever
Need you forever, forever, forever
Need you forever, forever, forever

Will you be there for me
Take your breath away
Let's not say too much
Cause this [?]
Set your destiny
Tryna hold you right now

Need you forever, forever, forever
Need you forever, forever, forever
