

## Parallel Lines

DVBBS

There's a force  
Stronger than us  
But this love I can't ignore  
We run the same course  
But we never touch  
My body attracts yours

What if I am your missing piece  
What if we mess with destiny  
What if the definition of we  
Is two people in time living their own lives  
Like two parallel lines  
That'll never, that'll never collide  
Steady, I just keep on hoping  
That one of us will find  
Find a way we can intertwine  
Steady, I just keep, I keep on hoping

On hope by you  
On hoping  
On hope by, by you keep  
I keep on hoping  
On hope by you  
On hoping  
Parallel lines  
By, by you keep  
(I keep on hoping)

Another day  
I see you running away from the way that you look at me  
Just look at me, yeah  
Why you don't change  
Just cause the weather is cold that don't mean that we're losing it (losing it)  
Aren't you wondering

What if I am your missing piece  
What if we mess with destiny  
What is the definition of we  
Is two people in time living their own lives  
Like two parallel lines (two parallel lines)  
That'll never, that'll never collide (never, never)  
Steady, I just keep on hoping  
That one of us will find (one of us will find)  
Find a way we can intertwine  
Steady, I just keep, I keep on hoping

On hope by you  
On hoping  
On hope by, by you keep  
I keep on hoping  
On hope by you  
On hoping  
Parallel lines  
By, by you keep

Like two parallel lines (two parallel lines)

That'll never, that'll never collide (never, never)  
Steady, I just keep on hoping  
That one of us will find (one of us will find)  
Find a way we can intertwine  
Steady, I just keep, I keep on hoping

On hope by you  
On hoping  
On hope by, by you keep  
I keep on hoping  
On hope by you  
On hoping  
Parallel lines  
By, by you keep

Like two parallel lines  
That'll never, that'll never collide  
Steady, I just keep on hoping (keep on hoping)  
That one of us will find  
Find a way we can intertwine  
Steady, I just keep (I keep on hoping)

Like two parallel lines  
That'll never, that'll never collide  
Steady, I just keep on hoping
