

White Clouds

DVBBS

We falling down, but never hit the ground
We land on these white clouds
We fall in love, but never safe in sound
Our hearts like to roam around

We falling down, but never hit the ground
We lived on these white clouds
We fall in love, but never safe in sound
Our hearts like to roam around

White clouds...
We land on these white clouds

White cloud, White cloud

White clouds... white white clouds

We falling down, but never hit the ground
We land on these white clouds
We fall in love, but never safe in sound
Our hearts like to roam around

White clouds... white white clouds

White clouds, white clouds

White clouds... white white clouds
