

Dangerous City

dvsn

Y'all can't be here

Come, baby, make me love you
Come, baby, make me love you down
Come here now, baby, make me love you
Come, baby, make me love you down
In this dangerous city, yeah
It's better if you come here to me

Seems everyday it's getting worse up in the city (Six)
They say we're wylin', outta hand, no one can fix we
Baby, it's safer here with me because they know me
The only crime you'll ever face is feelin' lonely (True)
They in our city, in our city, flow free
The enemies, the enemies all pray we all... (Hol' on)
And I hope you recognize (Yeah), you're the only reason why
I'm even goin' outside tonight, it's supposed to be live
Gunman, don't kill my vibe tonight

Come, baby, make me love you
Come, baby, make me love you down
Come here now, baby, make me love you
Come, baby, make me love you down
In this dangerous city, yeah
It's better if you come here to me

Seems every day it's getting worse up in the neighbors
Don't make it any easier bein' so famous
So much entitlement, so many expectations
Fuck a handout, more consistency and patience
Held the Henn' and told 'em keep that same energy
Niggas say they true feelings off that inner being
Told them niggas, "I ain't new to this, I'm true to this"
Them pussies couldn't stand half what I went through for this
Half what I went through for this
Don't make me wait too long, baby
I learned from my mistakes, I was wrong, baby
Don't want talkin', I'll show you, baby
Come closer, baby

Come, baby, make me love you (Ooh)
Come, baby, make me love you down (Come make me love you)
Come here now, baby, make me love you (Let me love)
Come, baby, make me love you down (Down, down, down, down)
In this dangerous city, yeah (Ooh, oh, {dangerous city})
It's better if you come here to me

Alright
Come mek I love you, fingers through your hair
Beside me, you'll be safe, there is danger everywhere
One is still single? Let's be a pair
In all this chaos, you mek everyting clear
And I just want to love you down, show you I care
Baby, you're not just a gem, you're extremely rare
Sexy likkle face just in her underwear
And every man with bands just a stare
Turmoils and strife, danger everywhere

And I just want to cuddle up and hold you near
Where there is safe, it is near don't fear
And if you got options, girl, I ain't gon' care
I'm gon' kiss you pon your lips and just tell you

Come, baby, make me love you
Come, baby, make me love you down (Ha, ha, ha, ha, ha)
Come here now, baby, make me love you (Yeah)
Come, baby, make me love you down
In this dangerous city (Dangerous, dangerous city), yeah
It's better if you come here to me (There is no pretty, woo)
