

**Sept. 5th**

**dvsn**

I'm really sorry, I didn't mean it  
Know what you said, I just can't believe it  
I feel discarded, I feel mistreated  
I think of love, and you're the meaning

Baby, I, baby, I  
Can't shake the feeling that  
I could make it better  
If I could have sex with you  
I could make it better  
If I could have sex with you

Tired of losing, but there's no winning  
Dug a hole and I put us in it  
Now you're departed, I feel defeated  
I think of love, I think you're the meaning

Baby, I, baby, I  
Can't shake the feeling that  
I could make it better  
If I could have sex with you  
I could make it better  
If I could have sex with you

You, with you  
If I could have sex with you  
Right now baby  
Right now baby  
Still in your world  
Soon as I get back again  
I'll tell you that I've never loved nobody else  
I'll tell you that I've never touched nobody else  
I'll tell you that I've never felt nobody else  
No, I'm not riding with just anybody else  
I'll tell you that you've never loved nobody else  
I'll tell you that you've never touched nobody else  
I'll tell you that you've never felt nobody else  
I know that you're not riding with just anybody else
