

# Think About Me

dvsn

Don't think that we  
Could ever be friends again  
'Cause our history  
Seems like it never ends

Who's gonna make love like I do?  
Yeah, nobody  
And who knows your touch like I do?  
Yeah, nobody  
And who's gonna make sure that you come first in everything they do?  
Everything you do, I want you tell the fuckin' truth

I know you still think about me  
I know you still think about me  
Way up there all alone  
Yeah, I bet they'll never know  
I know you still think about me  
How could you not think about me?  
Way up there all alone  
The best that you've ever known  
I know you still  
I know you still think about me  
Do you not think about me?  
You're gonna think about me

Don't think that we  
Could ever be just platonic  
And is it just me  
Or would that be too ironic?

Now who gonna fuck like I do?  
Yeah, nobody  
And who knows your touch like I do?  
Yeah, nobody  
And who's gonna make sure that you come first in everything they do?  
Everything you do, I want you tell the fuckin' truth

I know you still think about me  
I know you still think about me  
Way up there all alone  
Yeah, I bet they'll never know  
I know you don't think about me  
How could you not think about me?  
Way up there all alone  
The best that you've ever known  
I know you still  
I know you still think about me  
Do you not think about me?  
You're gonna think about me
