

Try / Effortless

dvsn

I don't have a type but if I did it would be you
If I did, it would be you
But I don't never chase you down
Running after love is the last thing that I do
But you know, I'm running around
Cause I adore you, stop playing around
You know you know you know ya
You make me feel some kind of way babe
You know you know you know it
You make me feel some kind of way babe

And now you want more than a little
More than a little
It was just enough baby
And If I give you more than a little
More than a little
You should know it's something
Cause you're the first to make me

Try, try for ya
Try, try for ya
You're the first to make me
Try, try for ya
Try, try for ya
Gotta try for ya
You're the first to make me

I don't have a type
If I did, it would be you
I think you're perfect for me
Running after love is the last thing that I do
But you know, I'm running around
Cause i don't, stop playing around
You know you know you know it
You make me feel some kind of way babe
You know you know you know it
You make me feel some kind of way babe

And now you want more than a little
More than a little
It was just enough baby
And If I give you more than a little
More than a little
You should know it's something
Cause you're the first to make me

Try, try for ya
Try, try for ya
You're the first to make me
Try, try for ya
Try, try for ya
Gotta try for ya
You're the first to make me

I can't believe I'm saying this
Cause I got rules, but I'm breaking them all for you
Yeah, I'm breaking them all for you

Yeah I got rules, but I'm breaking them all for you
(breaking them all)

And now you want more than a little
More than a little
It was just enough baby
And If I give you more than a little
More than a little
You should know it's something
Cause you're the first to make me

Try, try for ya
Try, try for ya
You're the first to make me
Try, try for ya
Try, try for ya
Gotta try for ya
You're the first to make me

And I got my hands up
Baby got my hands up, don't shoot
You're killing me
I know, I know that
Ain't nobody playing us
Hope you understand us, don't you, hey
Put my pride aside
I know, I know that
If you forget, and I got what you want
We keep going, til we can't go no more
Whatever you want and you know that I got it
When you walk up in the room people staring at you

Saying I know, I know, I know, I know, I know ya
You're so effortless
She said "I know, I know, I know, I know, I know ya
You're so effortless"
I know, I know, I know, I know, I know ya
You're so effortless
She said "I know, I know, I know, I know, I know ya
You're so effortless"
