

## You Do

dvsn

I know my signs, I know my chemistry  
I know that things can be pulled together right out the blue  
Right out the blue  
I play it cool when I see you look at me  
I'm pretty confident  
We both know what it is between us two  
Between me and you  
So won't you say it?

You might just be too nervous  
You feel like trust is worst than  
Just being alone  
We all get insecure, it's true, it's cool  
Cause I feel like you do  
I feel like you do  
Just like you do

Do me a favor, and do it for yourself  
Don't you be holding back, don't you know holding back's impossible  
When something feels as natural, yeah  
And I ain't got time to be sitting 'round here  
And just waiting, and waiting, and waiting, and waiting  
You know that I hate it, but it'll feel good once you say it

You might just be too nervous  
You feel like trust is worst than  
Just being alone  
We all get insecure, it's true, it's cool  
Cause I feel like you do  
I feel like you do (I feel like you do, I feel like you do)  
Just like you do

Oh, oh, I feel like you do  
Oh, oh, I'm feeling it too  
Oh, oh, I feel like you do  
Oh, oh, I'm feeling it too

You might just be too nervous  
You feel like trust is, worst than  
Just being alone  
We all get insecure, it's true, it's cool  
Cause I feel like you do  
I feel like you do (I feel like you do, I feel like you do)  
Just like you do  
I feel like you do  
Just like you (you do, you do, you do, you do, you do, you do, you do, you do  
, you do)
