

## Bleed Alright

Dwarves

I don't wanna hold your hand  
And I don't wanna be your man  
You all need tonight  
Wanna bleed, gimme a knife

And shots that come with ?  
Feel like shit  
So ?  
Woah, makes me sick

And oh I need a knife  
Wanna bleed, gimme the wine  
The heathen told me are you ready  
For your towing? Let it bleed!  
AAAAA

Though all the doubts, had to crawl through ten bodies  
To get up and get out  
The concussion and explosion ripped her internal organs out  
Like the ? of a teen  
Then you bleed out from the inside out  
I remember reaching out to my crutch and blood was  
Coming out of my thighs  
I thought I was gonna die just like this
