

# If There Was A Way

Dwight Yoakam

**D**                    **G**  
I was just standing  
                         **Em**  
Alone in this room.  
                         **G**  
Surrounded my memories  
                                 **Em**  
We stopped making too soon.

**C**  
Oh, I was just standing  
                         **D**  
I was just standing,  
                         **Em**  
Alone in this room,  
                         **G**  
Alone in this room.

I was just thinking  
All to myself.  
How I still want you  
and nobody else.

Oh, I was just thinking,  
I was just thinking,  
All to myself,  
All to myself,

**C**    **G**  
In this darkness I move slowly,  
**C**    **G**  
Always struggling to be free.  
**Am**  
But I still hear your voice,  
**C**  
And everywhere I see you the choice  
                 **Am**                    **C**                    **D7**  
That made such a fool of me.

I was just wondering,  
If there was a way.  
Bringing back to me  
Pretty things I could say.

Oh I was just wondering,  
I was just wondering,  
If there was a way.
