

# Bringing Back The Glory

Dying Fetus

Where has it gone?

Where has it gone?

It's faded out like the rest

But at it's pinnacle our scene was the best

And now it's gone, and we are all to blame

And since the downfall, the crew ain't the same

I remember the days when CCS was the shit

So we're keeping it alive

The Cautious Crew won't quit

Bringing Back The Glory

In the absence of strength the opposition flourished

And they've tried to destroy that which we have nourished

Talking shit about pride and the white man's glory

It's just a scam to hide your weakness

A science fiction story

Spreading racist lies, you know that shit is whack

This scene is ours and now we're taking it back

Bringing Back The Glory

Bringing Back The Glory

Nothing but a beatdown...

Bringing Back The Glory

A CCS beatdown...

Bringing Back The Glory

CCS in control and if we catch you slippin'

You'll go down like the rest, a holy ass whippin'

Bitch ass racists get beat like their wife

The only shit we'll take from you is the shit you call a life
