

Come inside to dream a while, let yourself lay to rest
The wake up to a brave new world deep within
You new life begins

The revelation hits like nothing you have felt before
The surging potency have you holding on for more
With sheer precision we have made it to the precipice
Now we stand aligned

Come
When the world is set on fire we have seen it all
The sun is gone, the battle's won, the game is on
When the light has start to dim you know the night has come
We still shine bright like a rainbow, like a starfall
We shine right through it all.
Like rainbows. We're the starfall

We failed to see how far we could chase our dreams, our fantasi
es
'Cause mankind's reach will always exceed its grasp
We were never meant to last

Abdication looms but we live on through our infamy
Let's stand our ground it's better to burn out than to fade awa
y
Let's watch the grande finale as we go down in history
As civilizations peak

Come
When the world is set on fire we have seen it all
The sun is gone, the battle's won, the game is on
When the light has start to dim you know the night has come
We still shine bright like a rainbow, like a starfall
We shine right through it all.
Like rainbows. We're the starfall
