

# These Days

Dyslesia

It's easy to cry the darkness  
Without the light and everything around  
It's so easy to shine without the light  
I think about the days full of joy  
Full of joy  
Remember every time you see the moon  
She'll never cross the eyes of the sun  
I feel like I'm caught in a web  
With nothing to face except you

Pre Chorus:

Don't wanna cry every day  
Don't wanna cry all the time

Chorus:

I will return again back from home  
These days we were so young and kind  
Why should we stop the game  
Play with me one more time and let them talk  
Till the end of time

I don't wanna stop the tick of the clock  
But it sounds like hell's bells  
The wave of the pain I felt so inside  
breaks my heart forever

Pre Chorus

Chorus

Until the end of time  
I walk with you in my dreams  
You cross my days but not my life  
Now I am so all alone

Chorus
