

I will fly  
When the stars will come  
I will shine forever this way to heaven  
Now it's time  
To save you and I  
Together hand in hand  
Strong and facing the world

Still searching for the miracle  
Will never stop fighting our life

Chorus:

Come on and fly with me through the night  
We're walking for the safety on earth  
If we can be as one united brother  
We're the force we're the soldiers  
We fight for this world

Take my land, I will lead you now  
Promised land, will be not so far please keep the faith  
You will see I'm not a hero  
Just as you fighting for tomorrow and my sons

Still searching for the miracle  
Will never stop fighting our life

Chorus

Look into my eyes  
I will have the  
faith for the world  
To live in harmony

Chorus
