

## Two Tone Rebel

E-dubble

Hop to it with the fluids  
Study like a student who be fucking with them truants  
(I never left)  
No pack but I still smell sewage  
Catch me blowing on that loud like a motherfucking tuba  
Like it's motherfucking Zumba  
Robot drop top cut-throat mula  
Hopped out that uber  
Brand new shoes no newer  
Don't fuck with me I got that two tone rebel shit stuck to me  
And it's a luxury fucking with these beats got me living comfortably  
And what I provide is the soundtrack that proves we went through this life  
Never divide, always survive  
(Okay folks, we have arrived)

Jazzers on deck when I come through  
No Five-O on my gum shoe  
We got more kicks than a kung-fu  
Flick fuckboy might get it when he come to  
But he don't seem like he'll be waking up  
Most slept on him, fuck it cousin show me love  
Two-one-fifth in my veins don't get it fucked  
Run up on me wrong I won't even fuck a knuckle up

Roughly about the size of Shaq, I fire back  
I fire first, the damage hurts  
The chorus hits, the drums are sick  
Got kids out in Dubai banging my old shit  
The dude is home  
The wheels are clean  
The flow is mean  
I been E-dubble since the days of between  
And god damn, I'm about the Shoulder Lean  
Like Young Dro and T.I  
(lock and loaded)  
Drama they like me  
Fools size dont psych me  
Pull up on eighteens and yeah they just like me  
V8 all in mine, my wheels and my rims shine  
RT go hard G no question with rim job  
Front for that sponsor, front for that front doe'  
If they can't each time my horse would be front row  
Fuck what they came for, I know what they came for  
My name is E-dubble and I am not paid  
Fuck plan B, I got a plan for it  
I put my head down and I just ran for it  
Couldn't see the pitfalls that I ran towards  
Moving so fast I was coming out my airforce  
Keep your shoes on, get your move on  
Stop slippin' you been trippin' way too long  
Both shoes on, new true song  
Rings a bell? Well, it must be two tones
