

Like A Child

E-Type

I still feel the flame

I can bring the light
I'm gonna make your dreams come true
come into my world
before your nightmare's coming true

Fear, won't give no mercy
fear, is what you taste, you're alive

Hear my cry - I'm just a child, I can't believe we're
not forever
Hear my cry - it's just a lie, the way you leave me
wanting more
Hear my cry - I'm just a child, I can't believe we're
gone forever
Hear my cry - it's just a lie when you walk right out
the door

Take another look, you see me clawing at your window
who's the one to blame, this is the storm, we didn't
know

Fear, won't give no mercy
you can save me
fear, is what you taste, you're alive

Hear my cry - I'm just a child, I can't believe we're
not forever
Hear my cry - it's just a lie, the way you leave me
wanting more
Hear my cry - I'm just a child, I can't believe we're
gone forever
Hear my cry - it's just a lie when you walk right out
the door

not forever
