

This Is The Way

E-Type

This.....this is the way
This is the way I wanna live
I'm going through changes
This is the way I wanna live

From this day on noone is going to tell me
what I should do or what I should not
that ain't the way,
the way that it shall be fight it all the way
so let them vultures prey on each other
don't let them spoil it you've come this far
coming out like a force of nature
this is the shape of things to come...

This.....this is the way
This is the way I wanna live
I'm going through changes
(coming up, coming up)
This is the way I wanna live

So if you're feeling sort of down & out
don't loose ya faith, wipe away the doubt
you must take a stand that's what it is about
if nothing else works just SHOUT!
You're no Baloney Homo Sapien
you're the original king of the hill again
coming out like a force of nature
this is the shape of things to come...

This.....this is the way
This is the way I wanna live
I'm going through changes
(coming up, coming up)
This is the way I wanna live
