

When Religion Comes To Town

E-Type

When I hear the news my head starts spinning
I'm sorry
I ask myself what is this I feel so low
could it be that the whole wide world is mad,
I'm worried
I ask myself can we still live close together...

When religion comes to town

I wonder how
something so good can be misunderstood
invented to bring understanding to the world
it's being used in the name of greed and warfare
we must reclaim it now and come together...

When religion comes to town
