

# Into the Sky

Eagleheart

I am the key to universe but I'm lost in  
Sent to this world of chaos seems like my fall  
Light turns to dark, dark turns to light  
what should I trust in?  
How many times I've lived now I can recall

If I could turn back time forever  
To stop what has begun  
Wake up your mind it's now or never  
Life is a gift of time

In the sky there's a fire  
As the sun is going down  
In the end time will come  
For our redemption

Way of light shines in darkness  
Will I find it till I die?  
Deaf and blind lead my life  
Into the sky

Beware!

All what you do in life you'll get - good or evil  
Follow the call of inner voice  
Feel no pain  
Time of your life is passing by counting minutes  
Death by your side is waiting  
Break all her chains

If I could turn back time forever  
To stop what has begun  
Wake up your mind it's now or never  
Life is a gift of time

In the sky there's a fire  
As the sun is going down  
In the end time will come  
For our redemption

Way of light shines in darkness  
Will I find it till I die?  
Deaf and blind lead my life  
Into the sky

There is a gift we've been given to change our fate  
See who I am, see who you are  
Together we can change the world until it's too late  
Only love can save us when we die  
Save us all

If I could turn back time forever  
To undone what was done  
Wake up your mind it's now or never  
Life is a gift of time

In the sky there's a fire

As the sun is going down  
In the end time will come  
For our redemption

Way of light shines in darkness  
Will I find it till I die?  
Deaf and blind lead my life  
Into the sky

Way of light shines in darkness  
I will find you till I die  
Deaf and blind lead my life  
Into the sky
