

No Chance, No Dance

Earl Thomas Conley

I didn't come out here to cry about the one that got away
I ain't gonna wait and kick myself for something I didn't say
If you don't like what you hear, then you can just slap my face
I came to play, and I ain't gonna play it safe

No chance, baby no dance
No pain, honey no gain
No guts, no glory, gotta get it well it's hot
If I don't fire on you right now I'm gonna lose my shot

I got some things I could say to you, but maybe I should bite my tongue
If we're not in love by the time we're thru, then maybe we can still have fun
You might as well hear what's on my mind, I ain't gonna let you go
I might get lucky, but the worst you could say is no

No chance, baby no dance
No pain, honey no gain
No guts, no glory, gotta get it well it's hot
If I don't fire on you right now I'm gonna lose my shot

You might as well hear what's on my mind, I ain't gonna let you go
I might get lucky, but the worst you could say is no

No chance, baby no dance
No pain, honey no gain
No guts, no glory, gotta get it well it's hot
If I don't fire on you right now I'm gonna lose my shot

If I don't make my move on you, I'm gonna lose my spot
If I don't fire on you right now I'm gonna lose my shot
