

## You Got Me Now

Earl Thomas Conley

I know you know what it's like  
To feel like no one cares  
To reach your arms out in the night  
And find there's no one there  
The night's too long and life's too short  
To ever live alone  
Love has finally come to stay  
And now those days are gone

You've got me now  
You've got me now  
And I'll be here to keep you warm  
From now on  
Lay your head down  
Rest your heart all night  
It's alright  
Cause you've got me now

I thought I'd been in love so true  
That it would never end  
Girl I know you've been there too  
You don't have to go back again  
Cause I'll be here close by your side  
As you go down the road  
And when the world is on your shoulders  
I will share your load

You've got me now  
You've got me now  
And I'll be here to keep you warm  
From now on  
Lay your head down  
Rest your heart all night  
It's alright  
You've got me now  
You've got me now  
It's alright  
Cause you've got me now
