

Black and White

EarlyRise

Will it be the same tomorrow?
Will you recognize your face?
Don't forget about your sorrow
Don't ignore your happiness

Close your eyes to find the light
Aren't you sick of black and white?
Close your eyes to find the light
Aren't you sick of black and white?
Black and white

Look around, it's all in your head
You've been confused and mislead
Doesn't mean you should forget
Learn your lesson, don't regret

Close your eyes to find the light
Aren't you sick of black and white?
Close your eyes to find the light
Aren't you sick of black and white?
Black and white

Close your eyes to find the light
Aren't you sick of black and white?
Close your eyes to find the light
Aren't you sick of black and white?
Close your eyes to find the light
Aren't you sick of black and white?
Close your eyes to find the light
Aren't you sick of black and white?
Black and white...
