

## Asleep, I Lie

Earshot

I can't stay forever  
and you're too insulting to me (darling)  
I can't live forever and be who they want me to be and...

I  
I cannot pretend  
I will not surrender these dreams in my head  
I  
I will not disguise  
they cannot cover the stars in my eyes  
asleep I lie

Fall, like I do  
will this be the first time for you?  
walk on me, I walk on you  
stuck on me, stuck on you

All the things they're telling me  
make me wanna up and leave  
but I'm not sure that now's the time  
and I'm not sure of anything  
but even if I crossed the line  
at least I'm being true to life  
It's me out with the stars tonight (2x)
