

My Time

Earshot

I struggled with this pain inside, but it was too strong
you looked so catatonic, ya knew it was wrong
destructive, tainted, heated words scraped off your tongue
singing wholly sinful song

If you feel the same way, and you want to go to heaven for the
first time...

one more time

You wanna know the reason why I am the way I am
you wanna hear the truth the love the way that only I can tell
you wanna hear a song that moves and hangs inside of you
you wanna feel and see the magic that only I can sell

I'm gonna plug it in, turn it up, settle in
and turn the self indulgent matrons over belly up
I'm gonna find a way to touch you...
and blow away the hate for you to hear this fallen angel's song

My dear friends out there, standing atop the mountain
did you find your faith in God
when you found that you were buried at the bottom?
