**East 17** 

Turn the lights low And put some music on Let our bodies sing Swing 2 the soft song I feel ya heat It's turning me on I wanna feel ya all night long so Come close, as close as U can I surrender you're so tender and tanned I wanna toss, I wanna tumble Feel and fumble, I wanna do it Till my belly rumbles So lay back and Close your eyes and While I fiddle U can fantasize Yeah While I fiddle U can fantasize

Deep baby deep deep down Like sleep sugar, so rest upon my chest

What ya body wants I got dis Whatcha need indeed I'm gonna rock this I dream U scream and tighten ya hold I tiggle in the middle as we giggle In I go, oh, deep and down deeper Like an ocean As I push I blow ya emotions You explode, like dynamite U got the fuse but to ya fuse I got the light Together we swing Shh!, I hear our souls sing A symphony, a lovers harmony Yeah, Can U hear the harmony?

Deep baby deep deep down Like sleep sugar, so rest upon my chest

I'm gonna kiss ya from ya head 2 ya toes and then I'm gonna lick ya where you'd love me to go, yeah! Oil ya skin within hold ya tight Yeah, I butter the toast If U lick the knife And take a shower Maybe bubble the bath I'll wash yours, U wash mine Yeah, we'll have a good laugh I'll be the sponge, the sponge The sponge that wets U down Then I'll be the towel upon Your naked body, wrapped around And then as our game comes 2 an end We'll start again Yeah, yeah, yeah, yeah

Deep baby deep deep down Like sleep sugar, so rest upon my chest (2x)
