

Innocent erotic
You're my nightmare, my fantasy
Angel temptress, dream state or reality
Soul mate seducer, here with you is where I wanna be
Friends, lovers - tell me what you want from me

Some words are better left unsaid
Though faults will keep them in your head
I know it's better to be sure
You'll see, it's you that I adore

Heaven or hell
What path should I pursue?
Paradise, purgatory
The place you take me to
Today, eternity
Don't care as long as I'm with you
Present, future - what's left for me to do?
