

# Marry That Girl

Easton Corbin

The first time that I met her  
She was pouring shots of rum  
Told me that her cousin just turned 21  
She took my hand and said we're dancing  
When they played her favorite song  
We didn't stop till everybody else was gone

I'm gonna change her name but she don't know it yet  
She's what I've been praying someday God would send  
I ain't never been the same since we first met  
I'm gonna marry that girl  
I'm gonna marry that girl

My best friends tired of hearing  
Me talk about her smile  
He says you've only known her for a little while  
My momma keeps on saying  
I better take it slow  
I just say I will, but I already know

I'm gonna change her name but she don't know it yet  
She's what I've been praying someday God would send  
I ain't never been the same since we first met  
I'm gonna marry that girl  
I'm gonna marry that girl

I'll pick the perfect ring  
I'll pick the perfect time  
Ask her if she'll have me for the rest of my life

I'm gonna change her name but she don't know it yet  
She's what I've been praying someday God would send  
I ain't never been the same since we first met  
I'm gonna marry that girl  
I'm gonna marry that girl  
Gonna change her name  
Gonna buy that ring  
I'm gonna marry that girl  
I'm gonna marry that girl
