

# True Friendship Never Dies

Ebony Ark

Please believe in me  
believe in me now  
as I've believe in you  
for so many years we have been friends

Always being around  
Always being near  
Friendship that has died  
has never been the real one

All that we've lived through  
And all that we've planned  
Are our lives and I don't  
Don't wanna change them and  
All that we've lived through  
And all that we've planned  
Is in my mind and I  
Will be there for you

There is nothing here  
that you'd never do  
You make me see sunshine  
through the rain and the winter days too

Never being unkind  
Never away  
Friendship that has died  
has never been the real one
