

## We're Here Now

Ebony Ark

You don't believe in me  
Things never come easy  
Only want what I deserve  
Nothings for free

Black crows in the sky above  
But I'm not finished  
Stand up, hit the road, go on  
I won't stop here  
Doesn't hurt me

Your cold gaze, no more!

The time has come  
We're here now  
Time to complete what  
We have begun  
A long way gone  
See the end now  
Prove to yourself  
That they were wrong

You think you know it all  
your scorn wont get me  
my life wont fit in your mind  
just let me be

Now my fate belongs to me  
Won't follow others  
Now I'll decide where to go  
I won't be here  
They won't find me

Your cold gaze, no more!
