

How Far?

Echo & the Bunnymen

How far
Look how far we've come
From dark skies
That lit into the sun

How far, how far, how far
How far d'you think we've come?
How far d'you think we've come?
How long, how long, how long
How long d'you think we've walked?
How long d'you think we've walked?

We're not the ones, we're not the ones
Are we not the ones to bleed?
We're not the ones, we're not the ones
Are we not the ones you [?]?

How long
How long d'you think you are
How long
How d'you think we've done

How far, how far, how far
How far d'you think we've walked?
How far d'you think we've come?

We're not the ones, we're not the ones
Are we not the ones to bleed?
We're not the ones, we're not the ones
Are we not the ones you [?]?

Here we are
We're all lost in the end
And how dark he is
[?]
Yeah here we are
Like Apollo 11
We're all astronauts
Lookin' for heaven

How dark
How dark will it become
When all our
When all our stars have gone

How dark, how dark, how dark
How dark will it become?
How dark will it become?

We're not the ones, we're not the ones
Are we not the ones to bleed?
We're not the ones, we're not the ones
Are we not the ones you [?]?

Here we are
We're all lost in the end
And how dark he is

[?]
Yeah here we are
Like Apollo 11
We're all astronauts
Lookin' for heaven

Yeah here we are
All [?]
To not know where
Where our sky's gone
Yeah here we are
Like Apollo 11
We're all astronauts
Lookin' for heaven
