

# It Was A Pleasure

Echo & the Bunnymen

Let's get through this shit  
I know you'd like that too  
The stuff that undermines  
The best of me and you

It was a pleasure to meet you  
You slapped me right on the back  
Just a pleasure to meet you  
You got it almost exact

Make no discussion now  
Make no bad dreams now  
Make no reason now  
Make no excuses now

If I knock it all back  
Just like you say I do  
Would it confirm the suspect  
That suspicion will do?

It was a pleasure to meet you  
You slapped me right on the back  
Just a pleasure to meet you  
You got it almost exact

Make no discussion now  
(No discussion)  
Make no illusion now  
(No illusion)  
Make no delusion now  
(No delusion)  
Make no excuses now  
(No excuses)

All hands on deck  
[Inaudible]

Make no discussion now  
(No discussion)  
Make no illusion now  
(No illusion)  
Make no delusion now  
(No delusion)  
Make no excuses now  
(No excuses)

Let's get rid of this shit  
I know you'd like that too  
The stuff that undermines  
The best of me and you  
Failure to do so will result in the failure  
Failure to do so will result in the failure
