

Love's Found You And Me

Ed Bruce

Just as sure as there's gold in California
A jukebox in Texas guitars down in Tennessee
Just as sure as a peach grows in Georgia
We gonna make it love's found you and me

It's been a long time long time to comin' and you tried other s
o have I
But love never touched me till you touched me
And you never saw love till you saw it in my eyes
Just as sure as there's gold...
You can look too hot and overlook it never see the forest for t
he trees
Run your race too fast and never win it
But if love is a gamble they won't bet on you and me
Just as sure as there's gold...
Just as sure as there's gold...
We gonna make it baby love's found you and me
