Just as sure as there's gold in California A jukebox in Tesas guitars down in Tennessee Just as sure as a peach grows in Georgia We gonna make it love's found you and me

It's been a long time long time to comin' and you tried other so have T

But love never touched me till you touched me And you never saw love till you saw it in my eyes Just as sure as there's gold...

You can look too hot and overlook it never see the forest for the trees

Run your race too fast and never win it
But if love is a gamble they won't bet on you and me
Just as sure as there's gold...
Just as sure as there's gold...
We gonna make it baby love's found you and me
