## Collide

## **Ed Sheeran**

Oh yeah, we've been in the rain
Been on the rocks but we found our way
We've ordered pizza to an aeroplane
Slept on the beach like we were castaways
We've been in the storm
Been to an Irish bar in central Rome
Driven to hospitals with broken bones
Shared a toothbrush and shared our home

We've seen the moon reflect on the rolling tide Been up at 5AM watching the sunrise Because the world looks better when I'm by your side Oh I, oh I, oh I

When you and I collide You bring me to life Yeah, you bring me to life You bring me to life

When you and I collide You bring me to life Yeah, you bring me to life You bring me to life

We've been on the road
We've watched the blossom fall to earth like snow
Fumbled in cubicles in Tokyo
And been to funerals in rented clothes

We drank your father's whiskey when your grandma died You brought me to the morning through my darkest night Yeah, the world hurts less when I'm by your side Oh I, oh I, oh I

When you and I collide You bring me to life You bring me to life You bring me to life

When you and I collide You bring me to life Yeah, you bring me to life Yeah, you bring me to life

Head first, colliding
Dreamers, colliding
Universe, colliding
Your love let the light in

Head first, colliding Dreamers, colliding Universe, colliding

We made love in the sky

Overslept and missed the Northern Lights

You lost your wedding ring but I didn't mind
