

People Like You

Eddie Fisher

Oh yes, it's people like you
Who make life worthwhile
For people like me
And that's why people like me
Fall in love with people like you

It's such a good feeling
To wake up and know
That somebody's heart goes
Wherever you go

That somebody's waiting
With a sweet caress
To bring you happiness

Oh yes, it's people like you
Who make life worthwhile
For people like me
And that's why people like me
Lose their hearts to people like you

Life used to be lonely
No roses and wine
But now that's all over
Since you said you're mine

When somebody love's you
All at once you see
How beautiful life can be

Oh yes, it's people like you
Who make life worthwhile
For people like me
And that's why people like me
Fall in love with people like you

Oh yes, it's people like you
Who make life worthwhile
For people like me
And that's why people like me
Fall in love with people like you

Oh yes, it's people like you
Who make life worthwhile
For people like me
And that's why people like me
Fall in love with people like you
