

B-B-B-Burnin' Up With Love

Eddie Rabbitt

A hot flash just swept over me
When you walked in the room
I could feel those heat waves rollin' off of you
And your pretty body laying close to me
Melting in the heat
Hey is it hot in here or is it just me?

Cause I'm burning, burning up with love
Like a log in a fireplace
Yeah I'm burning, burning up with love

Since the first time I saw your face

And ever since the night we kissed
You set my world on fire
I been b-b-b burnin' up with love for you
I been b-b-b burnin' up with love
I been b-b-b burnin' up with love for you
I been b-b-b burnin' up with love

Somebody hand me a thermometer,
Hand it to me quick
I think I just better take my temperature
I'm sick, love sick
There's a red-hot fever inside of me
I musta caught it from your lips
It gets hotter and hotter and hotter, when we kiss

Baby I'm burning, burning up with love
Like a log in a fireplace
Yeah I'm burning, burning up with love

Ever since the night we kissed
You set my world on fire
I been b-b-b burnin' up with love for you
I been b-b-b burnin' up with love
I been b-b-b burnin' up with love for you
I been b-b-b burnin' up with love
