

## Bedroom Eyes

Eddie Rabbitt

There's no place on earth I'd rather be-ee  
Than layin' right her in your arms  
But babe, it's cold outside and I'm so glad  
You feel so soft and war-arm

Fingers findin' me and touchin' my skin  
Shadows dancin' on the wall  
I never wonder if you really care  
'Cause your eye-eyes are sayin' it all

And you don't have to say a word when you love me  
'Cause I know what you're feelin' inside  
When you look up at me  
And talk to my hear-eart  
With those bedroo-oom eyes

We fit together like a hand in a glove  
It's heaven when we're close like this  
Not one word is said but love is there  
I can feel it when we ki-iss

And you don't have to say a word when you love me  
'Cause I know what you're feelin' inside  
When you look up at me  
And talk to my hear-eart  
With those bedroo-oom eyes

And you don't have to say a word when you love me  
'Cause I know what you're feelin' insi-ide  
When you look up at me  
Talkin' to my heart  
With those bedroo-oom eyes

And you don't have to say a word when you love me  
'Cause I know what you're feelin' insi-ide  
When you look up at me  
And talk to my hear-eart  
With those bedroo-oom eyes  
With those bedroo-oom eyes  
Ooh-ooh, bedroo-oom eyes
