

Come With Me (Rabbittland)

Eddie Rabbitt

Come with me to a land of dreams
Where your fantasies become reality
Through that door, we'll all explore
The ocean floor inside an apple core

You and I, we'll sail the seven seas
We'll fly the skies, visit galaxies
We'll use our imagination, use our imagination
Come with me, take my hand
Make a wish, you're in Rabbittland
Rabbittland

We will go to a place I know
There's a friendly garden, tomatoes say hello (Hello)
Then we'll see magic trees
We'll go underground, god bless you if you sneeze

You and I, we'll sail the seven seas
We'll fly the skies, visit galaxies
We'll use our imagination, use our imagination
Come with me, take my hand
Make a wish, you're in Rabbittland

You and I, we'll sail the seven seas
We'll fly the skies, visit galaxies
We'll use our imagination, use our imagination
There's our destination, there's our destination
Come with me, take my hand
Make a wish, you're in Rabbittland
Rabbittland
